Michael Ashcroft
Michael graduated from Oxford with a first in jurisprudence and a first on the BCL. He became a member of chambers in 1997 and took silk in 2011. The majority of his work falls within four main areas: general commercial litigation/arbitration; energy; shipping and ship/off-shore construction (including shipbuilding and ship sale disputes) and commodities; and
insurance/reinsurance. He is recommended as a leading silk in the current editions of the Legal 500 and Chambers & Partners. He has appeared as counsel in numerous arbitrations in Singapore, is currently acting in arbitrations which are due to proceed to hearings in Singapore, Hong Kong and New York, and is always happy to travel outside England to represent clients.

Michael enjoys sitting as an arbitrator, either alone or as part of a panel. He is happy to accept appointments as an arbitrator both in London and abroad. From time to time, he acts as an expert on English law in foreign proceedings.

Belinda Bucknall Q.C.
M.A. (OXON)

Studied law at Oxford, studied for the Bar and after qualifying became a member of Sir Barry Sheen's chambers, then at 2 Essex Court (now Quadrant Chambers) one of the leading Admiralty sets.

She took Silk in 1988. She is a Deputy High Court judge in Admiralty, a Crown Court Recorder, a CEDR trained mediator, a supporting member of the LMAA, a Lloyd's Form Salvage Arbitration panellist and a member of a number of other arbitration and mediation groups including the Royal Aeronautical Society’s arbitration scheme. Though maintaining her barrister’s practice certificate, she is now concentrating on her practice as an arbitrator and mediator.

Her practice at the Admiralty Bar has involved the full range of “wet” and “dry” shipping work, including marine insurance, ship and luxury yacht construction, death and personal injury work arising out of accidents on board maritime structures, as well as general commercial and construction work and some aviation work. She is particularly able to deal with document-heavy cases and cases involving technical expertise. She has a working knowledge of French and some Italian.

Luca Forgione
LLM, FCIArb
A Solicitor of the Supreme Court of England and Wales and admitted to the Bar as an advocate in his native Italy, Mr. Forgione is the former General Counsel of Scorpio Tankers Inc. (NYSE: STNG) and Scorpio Bulkers Inc. (NYSE: SALT) where he led the legal function since the companies’ inception through their listing on the New York Stock Exchange and their subsequent aggressive expansion. In addition to his shipping expertise, Mr. Forgione is well versed with the commodity supply
chain and the legal and operational problems associated with it having worked for commodity traders and marine logistics companies. Mr. Forgione currently serves as General Counsel to a Monaco based privately held group with activities and interests in marine offshore and energy resources (mining, oil & gas), primarily but not exclusively in East and West Africa.

Mr. Forgione handles all major aspects of dry shipping and international trade both from a contentious and non-contentious standpoint and has experience of arbitration involving disputes over a variety of charter party forms and terms, bunker and cargo quantity / quality issues as well as ship sale and purchase transactions. In addition, Mr. Forgione has significant experience in international corporate and commercial transactions such as equity investments, incorporated/unincorporated joint ventures (including shareholders disputes), assets and business acquisitions/disposals as well as mergers & acquisitions.

Mr. Forgione was a Tutor in International Trade Law and Admiralty Law at University College London (U.K.) and more recently a Visiting Lecturer in International Trade Law at King’s College (U.K.). He has a Master Degree in Maritime Law from the University of Southampton (U.K.) and a Law Degree from the University of Genoa (Italy).

Stuart Shepherd
LL.B (Hons)

Solicitor and Partner at Reynolds Porter Chamberlain LLP. With Ince & Co LLP for 34 years from 1982 – 2106 (26 years as a Partner and as Global Head of International Trade from 2013) before joining RPC as Head of International Trade in 2016.

Since the beginning of his career Stuart's practice has focussed on commodities and shipping matters; a significant proportion of his practice involving advising clients trading in various commodities ranging from oil and gas, coal, metals and soft commodities. In the course of his career Stuart has handled a number of high profile matters concerning shipping, trade and related arbitration issues including "The Mathraki" [1989] (Commercial Court – nominations under Littlebrook oil trading contracts); "The Leftthero" [1992] (Court of Appeal – maxim "once on demurrage always in demurrage"); "The Bouccra" [1993] (House of Lords – strike out powers under S.13A of the Arbitration Act 1950 in respect of arbitral delay); "The Linardos" [1993] (Commercial Court – hold readiness/validity of NOR); "The Kriti Rex" [1996] (Commercial Court – damages for failure to provide a ship); Fiona Trust and Holding Corporation v Privalov [2007] (House of Lords – seperability of arbitration agreements) and "The Erin Schulte" [2014] (Court of Appeal – completion of delivery by endorsement under S. 5 (2) (b) of COGSA 1992).

Consistently ranked highly by the legal directories over the years Chambers UK 2017 reported "Shepherd recently joined RPC from Ince & Co and is "highly experienced in the field and understands the industry extremely well," reports a source. He has considerable experience across the full range of physical commodities, covering oil, gas, coal, metals and others."

Todor Vassilev

QUALIFICATIONS
Fellow of the Institute of Chartered Shipbrokers
Fellow of the Chartered Institute of Arbitrators

CAREER
Started his career as a chartering broker's assistant in a small shipping company in Varna, Bulgaria in 1992. Found his professional place in the trade between the ports in the Russian rivers and the ports of the Mediterranean Sea, where the vessels serving the trade are of the unique river-sea navigation design. The growth of the river-sea trade opened many opportunities. In 1999 he reached the position of a managing director and shareholder of a shipmanagement company that would manage for twelve years one of the largest fleets of river-sea design vessels performing over 450 contracts of carriage of goods by sea per year and carrying over 1.6 M tons of cargo per year. His practical experience extends to all fields of shipmanagement: chartering, operations, shiprepairs, insurance arrangements, claim handling, crewing, safety, security and quality management, ship supply etc.

EDUCATION
In 1987 he enrolled the navigation faculty of the merchant marine department of the Bulgarian Naval Academy. Graduated with an engineering degree and qualified as a watch keeping officer for ocean going vessels in 1992. In 1993 he enrolled the qualifying examinations course of the Institute of Chartered Shipbrokers and completed his studies in 1995, winning the Seascope Shipping Ltd award presented to the student with the highest marks in the 1995 examinations on tanker chartering. Completed the fellowship courses of the Chartered Institute of Arbitrators in July 2013.

EXPERIENCE IN ARBITRATION
Gained experience in arbitration by conducting 26 London maritime arbitrations in which his company's clients or his company itself were the claimants and he was representing them. He has not yet been appointed as arbitrator.

SPECIFIC FEATURES
Todor Vassilev is Bulgarian. He is fluent in English and Russian. He is able to dedicate as much time as it may be necessary for the fast conduct of arbitrations.

J. Arthur Waddington
B.Sc., C. Eng. F.I.Mar.E.S.T

Since 1977, as a casualty surveyor, analysed marine hull, machinery and materials failures for various principals including Ship Owners, Ship Operators, Ship Builders, Ship Repairers, Cargo Owners, and/or their Underwriters, and for Governments. Typically addressed cause (failure analysis) and cost issues considering in contentious cases the role of human factors (negligence), fatigue, wear and tear, corrosion and design anomalies.

1962-1977 developed practical skills and abilities as an apprentice. Gained marine machinery operation experience whilst serving at sea on both steam and motor vessels. Took time out from seagoing career to study for a bachelor's engineering degree specializing in materials science (metallurgy), engineering design and production engineering.
